Source Reporting:

CHS reported that Utah Primate Freedom (UPF) posted a bulletin on their myspace page which in part states, "There have been recent reports of our good friends at the FBI coming and harassing known activists at their workplace and at their homes and their family's homes." The bulletin stresses to its audience that it is "CRITICALLY IMPORTANT" to remain silent when questioned by authorities even though "no above ground activist is likely to have information to provide authorities about illegal activity."

The bulletin is appended to this file.
